Disclosure/ conflict of interest

The authors report no conflicts of interests. Data from the California Prenatal and Newborn Screening Programs was obtained through the California Biobank Program (Screening Information System request #476). Data was obtained with an agreement that the California Department of Public Health is not responsible for the results or conclusions drawn by the authors of this publication.

Funding sources

This research was supported by a Bill and Melinda Gates Foundation Global Grand Challenges grant and by the University of California, San Francisco Preterm Birth Initiative.

IRB Approval

Procedures were approved by the Committee for the Protection of Human Subjects for the State of California Health and Human Services Agency (protocol No. 12-09-0702).
