This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**1) Title: Accelerated acidosis in response to variable fetal heart rate decelerations in chronically hypoxic ovine fetuses**

**2) Authors:**

Kevin Amaya<sup>1</sup>, DO; Brad Matuszewski<sup>2</sup>; L. Daniel Durosier<sup>3</sup>, MD; Martin G. Frasch<sup>3</sup>, MD, PhD; Bryan S. Richardson<sup>2</sup>, MD; Michael G. Ross<sup>1</sup>, MD, MPH

**Affiliations:**

From the Department of Obstetrics and Gynecology, LA BioMed at Harbor-UCLA Medical Center, Torrance, CA<sup>1</sup>; Department of Obstetrics and Gynecology<sup>2</sup>, University Western Ontario, London, Ontario, Canada; CHU Ste-Justine Research Center, Department of Obstetrics and Gynaecology<sup>3</sup>, Université de Montréal, Montreal, Quebec City, Canada.

**3) The authors report no conflict of interest.**

**4) Support provided by the Women's Development Council, London Health Sciences Centre, London, ON (M.G.R., B.S.R., M.G.F.); Fonds de recherche du Québec - Santé (FRSQ) (M.G.F.); ;NeuroDevNet/MITACS (L.D.D., M.G.F.).**

**5) Clinical trials - Not applicable**

**6) Presentation information**

Presented in part at the Society for Gynecologic Investigation annual meeting, 2014

**7) Disclaimer – Not applicable**

**8) Reprints:** Michael G. Ross, MD, MPH, Department of Obstetrics/Gynecology, RB3, Box 467, Harbor-UCLA Medical Center, 1000 W Carson St., Torrance, CA 90502. mikeross@ucla.edu

**Abstract Word Count: 375 (max 500)**

**Manuscript Word Count: 2997 (max 3,000)**
