This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Running Head: Incidence and prevalence of traumatic SCI

TITLE PAGE

Title: Estimating the incidence and prevalence of traumatic spinal cord injury in Australia

Authors: names, degrees, institutional affiliations

- a) Dr. Peter Wayne New, MBBS, M Clin Epi, FAFRM (RACP)
 - 1) Spinal Rehabilitation Unit, Rehabilitation Services, Caulfield Hospital, Alfred Health, Victoria, Australia
 - 2) Principal Researcher, Epworth-Monash Rehabilitation Medicine Unit, Southern Medical School, Monash University, Melbourne, Victoria, Australia.

- b) David Baxter, BA, MSc
 - 3) Urban Futures Institute, Vancouver, BC, Canada

- c) Angela Farry, BSc
 - 4) Rick Hansen Institute, Vancouver, BC, Canada

- d) Vanessa K Noonan, PhD PT
 - 4) Rick Hansen Institute, Vancouver, BC, Canada
 - 5) University of British Columbia, Vancouver BC, Canada

ACKNOWLEDGEMENTS

For their assistance in providing some of the data used in this research, the authors thank Tara Stevermuer, Australasian Rehabilitation Outcome Centre, Centre for Health Service Development, University of Wollongong, Wollongong, New South Wales, Australia; and Geoff Henley and
