This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

MOVEMENT AND STIMULATION IMPROVE FUNCTION

Assisted movement with proprioceptive stimulation reduces impairment and restores function in incomplete spinal cord injury

Deborah Backus, PT, PhD

Director, MS Research

Director, SCI Upper Limb Research and Translation Lab

Shepherd Center, Atlanta, GA

Paul Cordo, PhD

Professor, Dept of Biomedical Engineering

Oregon Health & Science University, Portland, OR

Chief Technology Officer

AMES Technology, Inc., Portland, OR
