This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Running head: Pulmonary Function after Spinal Cord Injury

Title: Changes in pulmonary function during the early years after inpatient rehabilitation in persons with spinal cord injury: a prospective cohort study

Authors:

Karin Postma, MSc

Janneke A. Haisma, MD, PhD

Sonja de Groot, PhD

Maria T.E. Hopman, MD, PhD

Michael P. Bergen, MD, PhD

Henk J. Stam, MD, PhD

Johannes B. Bussmann, PhD

Authors' Affiliations:

From the Department of Rehabilitation Medicine and Physical Therapy, Erasmus MC, Rotterdam (Postma, Haisma¹, Stam, Bussmann); Rijndam Rehabilitation Center, Rotterdam (Postma, Haisma, Bergen); Reade, centre for rehabilitation and rheumatology, Amsterdam (de Groot); Center for Human Movement Sciences, University Medical Center Groningen, University of Groningen, Groningen (de Groot); Department of Physiology, Radboud University Nijmegen Medical Centre, Nijmegen (Hopman), The Netherlands.

Part of the material in this manuscript was presented during the annual meeting of the International Spinal Cord Society (ISCOS) in London on September 4, 2012.
