This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title page for manuscript:

Multi-Institutional Study Comparing the Height of Contrast during Performance of VCUG in Children

Running title:

Influence of contrast height on VCUG

Keywords: VCUG, contrast height, VUR

Acknowledgment:

The authors wish to acknowledge the Pediatric Diagnostic Radiography Technologists from both institutions involved in performing the VCUGs in this study.

Conflict of Interest Statement:

Brad Kropp is on the Advisory Board for Dignity.

Funding Source:

None

Ethical approval:

Institutional Review Board (IRB #1702) approval was obtained.

Authors:

Dominic Frimberger, MD, Pediatric Urology, University of Oklahoma Health Science Center

Christopher S Cooper, MD, Pediatric Urology, University of Iowa

Faridali Ramji, MD, Pediatric Radiology, University of Oklahoma Health Science Center

Christopher Aston, PhD, Pediatrics, University of Oklahoma Health Science Center

Mohammad Ramadan, MD, Pediatric Urology, University of Oklahoma Health Science Center

Kathleen Kieran, MD, Pediatric Urology, University of Iowa

Douglas W Storm, MD, Pediatric Urology, University of Iowa

Yutaka Soto, MD, Pediatric Urology, University of Iowa

Brad P Kropp, MD, Pediatric Urology, University of Oklahoma Health Science Center

Blake Palmer, MD, Pediatric Urology, University of Oklahoma Health Science Center
