

## Accepted Manuscript

Title: Retrofit of heat-integrated crude oil distillation columns

Author: V.M. Enríquez Gutiérrez M. Jobson L.M.  
Ochoa-Estopier R. Smith

PII: S0263-8762(15)00041-6  
DOI: <http://dx.doi.org/doi:10.1016/j.cherd.2015.02.008>  
Reference: CHERD 1784

To appear in:

Received date: 26-11-2014  
Revised date: 11-2-2015  
Accepted date: 13-2-2015

Please cite this article as: Gutiérrez, V.M.E., Jobson, M., Ochoa-Estopier, L.M., Smith, R., Retrofit of heat-integrated crude oil distillation columns, *Chemical Engineering Research and Design* (2015), <http://dx.doi.org/10.1016/j.cherd.2015.02.008>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## **Retrofit of heat-integrated crude oil distillation columns**

V.M. Enríquez Gutiérrez, M. Jobson, L.M. Ochoa-Estopier, R. Smith

Centre for Process Integration, School of Chemical Engineering and Analytical  
Science, The University of Manchester, United Kingdom

E-mail: victormanuel.enriquezgutierrez@manchester.ac.uk

### **Highlights**

- Retrofit methodology for heat-integrated crude oil distillation columns is proposed
- Main focus on capacity expansion
- Relevant hydraulic parameters are considered
- Structural modifications to debottleneck distillation columns are proposed
- HEN cost implications are considered
