

## Accepted Manuscript

Title: Propofol, but not etomidate, increases corticosterone levels and induces long-term alteration in hippocampal synaptic activity in neonatal rats

Author: Changqing Xu Christoph N. Seubert Nikolaus Gravenstein Anatoly E. Martynyuk

PII: S0304-3940(16)30111-2  
DOI: <http://dx.doi.org/doi:10.1016/j.neulet.2016.02.045>  
Reference: NSL 31873

To appear in: *Neuroscience Letters*

Received date: 19-11-2015  
Revised date: 22-2-2016  
Accepted date: 23-2-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Propofol, but not etomidate, increases corticosterone levels and induces long-term alteration in hippocampal synaptic activity in neonatal rats
