

## Accepted Manuscript

Title: Antinociceptive effect of intrathecal amiloride on neuropathic pain in rats

Author: Peizong Wang Handong Ouyang Qiang Li Lei Hao  
Yang Huang Weian Zeng

PII: S0304-3940(15)30048-3  
DOI: <http://dx.doi.org/doi:10.1016/j.neulet.2015.07.028>  
Reference: NSL 31451

To appear in: *Neuroscience Letters*

Received date: 10-4-2015  
Revised date: 21-7-2015  
Accepted date: 23-7-2015

Please cite this article as: Peizong Wang, Handong Ouyang, Qiang Li, Lei Hao, Yang Huang, Weian Zeng, Antinociceptive effect of intrathecal amiloride on neuropathic pain in rats, *Neuroscience Letters* <http://dx.doi.org/10.1016/j.neulet.2015.07.028>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Instructions when you submit your Data in Brief with your research article**

1. Complete this template below. Make sure you reference all data files directly in this template at the appropriate point.
2. Zip this completed Word document and any data files relevant to the Data in Brief (whichever supplementary data files you have chosen to include) into a single .zip file. When you submit your revised research article, please upload this .zip file as a “Data in Brief” item.
3. Double check in your research article that any reference to supplementary files that have been converted to your Data in Brief article now properly reference the Data in Brief instead. i.e. (see supplementary Figure 1) should now say, (see Figure 1 in Ref [#]) where your Data in Brief article is included in the reference list of your research article (including title, authors, journal name *Data in Brief* and the text “submitted”)
4. Make sure you reference your associated research article in the reference list here as well. You may reference this as “in press”

*[please fill in this template below]*

E-mail address: zengwa@mail.sysu.edu.cn (W.-a. Zeng)

<sup>1</sup> Both authors contribute equally to this paper.

**Highlights**

- Intrathecal amiloride can produce the antinociception on neuropathic pain.
- The antinociception is dose- and time- dependent.
