

## Accepted Manuscript

Title: Prospects and limitations of prescribed burning as a management tool in European grasslands

PII: S1439-1791(13)00149-7  
DOI: <http://dx.doi.org/doi:10.1016/j.baae.2013.11.002>  
Reference: BAAE 50751

To appear in:

Please cite this article as: Prospects and limitations of prescribed burning as a management tool in European grasslands, *Basic and Applied Ecology* (2013), <http://dx.doi.org/10.1016/j.baae.2013.11.002>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
