

## Accepted Manuscript

Title: The jaguar's patches: Viability of jaguar populations in fragmented landscapes

Author: Marina Zanin Francisco Palomares Daniel Brito

PII: S1617-1381(14)00066-1  
DOI: <http://dx.doi.org/doi:10.1016/j.jnc.2014.06.003>  
Reference: JNC 25363

To appear in:

Received date: 18-6-2013  
Revised date: 16-6-2014  
Accepted date: 20-6-2014

Please cite this article as: Zanin, M., Palomares, F., and Brito, D., The jaguar's patches: viability of jaguar populations in fragmented landscapes, *Journal for Nature Conservation* (2014), <http://dx.doi.org/10.1016/j.jnc.2014.06.003>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
