Opposite seasonality of the aerosol optical depth and the surface particulate matter concentration over the North China Plain

Wenjun Qu, Jun Wang, Xiaoye Zhang, Lifang Sheng, Wencai Wang

PII: S1352-2310(15)30568-9

DOI: [10.1016/j.atmosenv.2015.11.061](https://doi.org/10.1016/j.atmosenv.2015.11.061)

Reference: AEA 14313

To appear in: *Atmospheric Environment*

Received Date: 13 July 2015

Revised Date: 26 November 2015

Accepted Date: 28 November 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Opposite seasonality of the aerosol optical depth and the surface**
2 **particulate matter concentration over the North China Plain**
