This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Role of Carrier Gases in Enhancement of Gas Exchange and Aerosol-Drug Delivery under Invasive High Frequency Oscillatory Ventilation

Mohammed Alzahrany and Arindam Banerjee¹

Department of Mechanical Engineering & Mechanics,
Lehigh University, Bethlehem, PA 18015

Submitted to : **Journal of Aerosol Science**

Original paper type: **Research Paper**

First Submission Date: **Dec 2, 2014**

Reviews Received: **April 28, 2015**

Revisions Submitted: **May 17, 2015**
