Accepted Manuscript

Geochemical and palynological sea-level proxies in hemipelagic sediments: A critical assessment from the Upper Cretaceous of the Czech Republic

Kate Olde, Ian Jarvis, David Uličný, Martin A. Pearce, João Trabucho-Alexandre, Stanislav Čech, Darren Gröcke, Jiří Laurin, Lilian Švábenická, Bruce A. Tocher

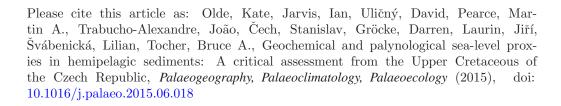

PII: S0031-0182(15)00315-6

DOI: doi: 10.1016/j.palaeo.2015.06.018

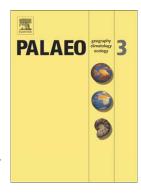

Reference: PALAEO 7319

To appear in: Palaeogeography, Palaeoclimatology, Palaeoecology

Received date: 21 July 2014
Revised date: 6 May 2015
Accepted date: 15 June 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
