Latest Cretaceous–earliest Paleogene vegetation and climate change at the high southern latitudes: palynological evidence from Seymour Island, Antarctic Peninsula

Vanessa C. Bowman, Jane E. Francis, Rosemary A. Askin, James B. Riding, Graeme T. Swindles

PII: S0031-0182(14)00215-6
DOI: doi: [10.1016/j.palaeo.2014.04.018](https://doi.org/10.1016/j.palaeo.2014.04.018)
Reference: PALAEO 6840

To appear in: *Palaeogeography, Palaeoclimatology, Palaeoecology*

Received date: 21 January 2014
Revised date: 29 April 2014
Accepted date: 30 April 2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Latest Cretaceous–earliest Paleogene vegetation and climate change at the high southern latitudes:
palynological evidence from Seymour Island, Antarctic Peninsula
