Phycoremediation of landfill leachate with chlorophytes: Phosphate a limiting factor on ammonia nitrogen removal.

Andrea Paskuliakova, Steve Tonry, Nicolas Touzet

PII: S0043-1354(16)30227-5

DOI: [10.1016/j.watres.2016.04.029](https://doi.org/10.1016/j.watres.2016.04.029)

Reference: WR 11986

To appear in: *Water Research*

Received Date: 19 January 2016

Revised Date: 11 April 2016

Accepted Date: 13 April 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Laboratory phycoremediation experiments with landfill leachate
