Granular activated carbon adsorption of organic micro-pollutants in drinking water and treated wastewater – aligning breakthrough curves and capacities

F. Zietzschmann, C. Stützer, M. Jekel

PII: S0043-1354(16)30055-0

DOI: [10.1016/j.watres.2016.01.056](https://doi.org/10.1016/j.watres.2016.01.056)

Reference: WR 11810

To appear in: *Water Research*

Received Date: 20 October 2015

Revised Date: 21 January 2016

Accepted Date: 26 January 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

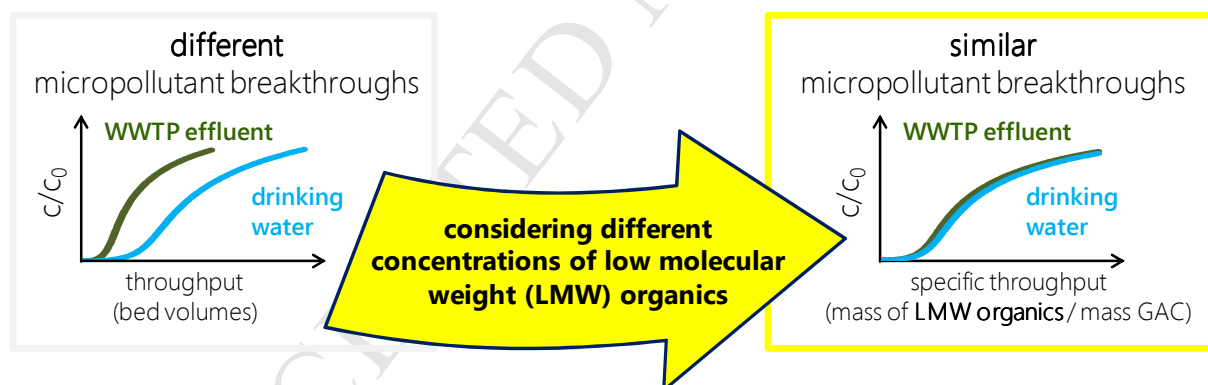

1 Granular activated carbon adsorption of organic micro-pollutants in 2 drinking water and treated wastewater – aligning breakthrough 3 curves and capacities

4 F. Zietzschmann*, C. Stützer, M. Jekel
