This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Running title: Effect of yeast combined with SA on disease control in  
citrus fruits**

**Effect of *Pichia membranaefaciens* in combination with salicylic acid on  
postharvest blue and green mold decay in citrus fruits**

---

Abbreviations:

SA, salicylic acid; POD, peroxidase; PPO, polyphenoloxidase;

PAL, phenylalanine ammonia-lyase; CHI, chitinase;

NYDA, nutrient yeast dextrose agar; NYDB, nutrient yeast dextrose broth;

CFU, colony-forming unit; TSS, total soluble solids; TA, titratable acidity.
