This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 Highlights

- 2 • Lack of understanding regarding the needs of captive gamebirds
- 3 • Defines suitable enrichment for breeding birds for welfare and production
- 4 • Highlights possible behavioural needs for resources targeting behaviours
- 5 • Evidenced-based approach to inform management, codes of practice or legislation
