This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 Manuscript Highlights

2

- 3 • Changes in, and reliability of turkeys' responses to four tests of fear were examined
- 4 • Some fear responses of turkeys change over time and with repeated testing
- 5 • Most open field, voluntary approach, and tonic immobility test responses are reliable
- 6 • Under conditions of repeated testing and differing novel objects, few novel object test responses
- 7 are reliable
