

Accepted Manuscript

A review of principles and applications of magnetic flocculation to separate ultrafine magnetic particles

Liqun Luo, Anh V Nguyen

PII: S1383-5866(16)31055-3

DOI: <http://dx.doi.org/10.1016/j.seppur.2016.07.021>

Reference: SEPPUR 13138

To appear in: *Separation and Purification Technology*

Received Date: 29 October 2015

Revised Date: 26 March 2016

Accepted Date: 16 July 2016

Please cite this article as: L. Luo, A.V. Nguyen, A review of principles and applications of magnetic flocculation to separate ultrafine magnetic particles, *Separation and Purification Technology* (2016), doi: <http://dx.doi.org/10.1016/j.seppur.2016.07.021>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A review of principles and applications of magnetic flocculation to separate ultrafine magnetic particles
