

Accepted Manuscript

Relationship between permeate flux and surface roughness of membranes with similar water contact angle values

Sahng Hyuck Woo, Jinwon Park, Byoung Ryul Min

PII: S1383-5866(15)00203-8

DOI: <http://dx.doi.org/10.1016/j.seppur.2015.03.048>

Reference: SEPPUR 12268

To appear in: *Separation and Purification Technology*

Received Date: 10 October 2014

Revised Date: 21 January 2015

Accepted Date: 26 March 2015

Please cite this article as: S.H. Woo, J. Park, B.R. Min, Relationship between permeate flux and surface roughness of membranes with similar water contact angle values, *Separation and Purification Technology* (2015), doi: <http://dx.doi.org/10.1016/j.seppur.2015.03.048>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Relationship between permeate flux and surface
roughness of membranes with similar water contact
angle values**
