

Thanks to Reviewers 2015

The standard of a scientific journal is to a great extent dependent on the quality of its reviewers. The team of *Journal of Hydrology* including Editors, Associate Editors, Guest Editors, Journal Publishing and Management teams, wish to thank those colleagues who served as reviewers during 2015. For those colleagues listed below, a sincere **THANK YOU** for your time and effort, and a deep appreciation for your work. The 2506 manuscripts submitted in 2015 were reviewed by 2681 individuals resulting in 4622 review reports and 850 papers published. Frequent reviewers are those who reviewed at least 5 papers in 2015. The Editors also wish to thank the Associate Editors who spend much time seeking reviewers for each submitted manuscript thereby serving our entire hydrological community. Finally, we look forward to working with all of you in 2016 (and beyond) to further advance our science and strengthen our collective scientific community.
