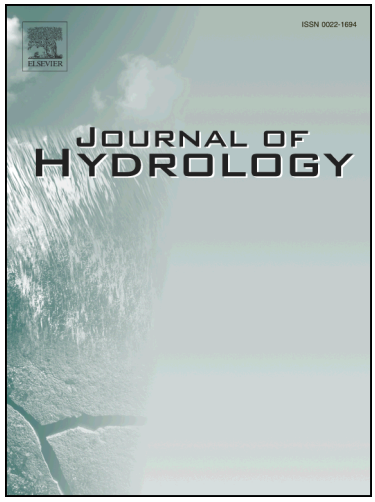
Accepted Manuscript



Integrative Neural Networks Models for Stream Assessment in Restoration Projects

Ed Gazendam, Bahram Gharabaghi, Josef D. Ackerman, Hugh Whiteley

PII: S0022-1694(16)30102-0
DOI: http://dx.doi.org/10.1016/j.jhydrol.2016.02.057
Reference: HYDROL 21101

To appear in: *Journal of Hydrology*

Received Date: 24 October 2015
Revised Date: 23 February 2016
Accepted Date: 27 February 2016

Please cite this article as: Gazendam, E., Gharabaghi, B., Ackerman, J.D., Whiteley, H., Integrative Neural Networks Models for Stream Assessment in Restoration Projects, *Journal of Hydrology* (2016), doi: http://dx.doi.org/10.1016/j.jhydrol.2016.02.057

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
