Mantle refertilization and magmatism in old orogenic regions: The role of late-orogenic pyroxenites

Lydéric France, Gilles Chazot, Jacques Kornprobst, Luigi Dallai, Riccardo Vannucci, Michel Gregoire, Hervé Bertrand, Pierre Boivin

PII: S0024-4937(15)00194-2
DOI: doi: [10.1016/j.lithos.2015.05.017](https://doi.org/10.1016/j.lithos.2015.05.017)
Reference: LITHOS 3604

To appear in: *LITHOS*

Received date: 12 September 2014
Accepted date: 20 May 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
