Modeling deformation modulus of a stratified sedimentary rock mass using neural network, fuzzy inference and genetic programming

S. Alemdag, Z. Gurocak, A. Cevik, A.F. Cabalar, C. Gokceoglu

PII: S0013-7952(15)30097-1
DOI: doi: [10.1016/j.enggeo.2015.12.002](https://doi.org/10.1016/j.enggeo.2015.12.002)
Reference: ENGEO 4184

To appear in: *Engineering Geology*

Received date: 1 February 2015
Revised date: 11 November 2015
Accepted date: 5 December 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Modeling Deformation Modulus of a Stratified Sedimentary Rock Mass
Using Neural Network, Fuzzy Inference and Genetic Programming**
