

## Accepted Manuscript

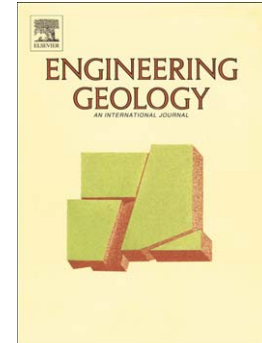

Assessing the coefficient of the earth pressure at rest from shear wave velocity and electrical resistivity measurements

Liyuan Tong, Lian Liu, Guojun Cai, Guangyin Du

PII: S0013-7952(13)00175-0  
DOI: doi: [10.1016/j.enggeo.2013.05.012](https://doi.org/10.1016/j.enggeo.2013.05.012)  
Reference: ENGEO 3605

To appear in: *Engineering Geology*

Received date: 16 December 2010  
Revised date: 27 April 2013  
Accepted date: 16 May 2013

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Assessing the coefficient of the earth pressure at rest from shear  
wave velocity and electrical resistivity measurements**

Liyuan Tong, PhD, Associate Professor, Institute of Geotechnical Engineering, Southeast University, Nanjing, China

Lian Liu, PhD, Geotechnical Engineer, Mott MacDonald Group, 8-10 Sydenham Road, Croydon, Surrey CR0 2EE, UK

Guojun Cai, PhD, Associate Professor, Institute of Geotechnical Engineering, Southeast University, Nanjing, China

Guangyin Du, PhD, Associate Professor, Institute of Geotechnical Engineering, Southeast University, Nanjing, China
