Native and solubilized decellularized extracellular matrix: a critical assessment of their potential for improving the expansion of mesenchymal stem cells

Aida Shakouri-Motlagh, Andrea J. O'Connor, Shaun P. Brennecke, Bill Kalionis, Daniel E. Heath

PII: S1742-7061(17)30239-8
DOI: <http://dx.doi.org/10.1016/j.actbio.2017.04.014>
Reference: ACTBIO 4838

To appear in: *Acta Biomaterialia*

Received Date: 1 December 2016
Revised Date: 3 April 2017
Accepted Date: 11 April 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 Manuscript for submission to *Acta Biomaterialia*
