3D bioprinting of urethra with PCL/PLCL blend and dual autologous cells in fibrin hydrogel: an *in vitro* evaluation of biomimetic mechanical property and cell growth environment

Kaile Zhang, Qiang Fu, James Yoo, Xiangxian Chen, Prafulla Chandra, Xiumei Mo, Lujie Song, Anthony Atala, Weixin Zhao

PII: S1742-7061(16)30677-8
DOI: <http://dx.doi.org/10.1016/j.actbio.2016.12.008>
Reference: ACTBIO 4589

To appear in: *Acta Biomaterialia*

Received Date: 22 August 2016
Revised Date: 1 December 2016
Accepted Date: 5 December 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
