Accepted Manuscript

Novel sol-gel synthesis route of carbide-derived carbon composites for very high power density supercapacitors

Maarja Pohl, Heisi Kurig, Indrek Tallo, Alar Jänes, Enn Lust

PII: S1385-8947(17)30435-7

DOI: http://dx.doi.org/10.1016/j.cej.2017.03.081

Reference: CEJ 16677

To appear in: Chemical Engineering Journal

Received Date: 20 December 2016 Revised Date: 16 March 2017 Accepted Date: 17 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
