Effects of Upstream Shear Forces on Priming of Platelets for Downstream Adhesion and Activation

Shekh Rahman, Colin Eichinger, Vladimir Hlady

PII: S1742-7061(18)30192-2

DOI: <https://doi.org/10.1016/j.actbio.2018.04.002>

Reference: ACTBIO 5402

To appear in: *Acta Biomaterialia*

Received Date: 27 December 2017

Revised Date: 29 March 2018

Accepted Date: 2 April 2018

Please cite this article as: Rahman, S., Eichinger, C., Hlady, V., Effects of Upstream Shear Forces on Priming of Platelets for Downstream Adhesion and Activation, *Acta Biomaterialia* (2018), doi: <https://doi.org/10.1016/j.actbio.2018.04.002>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Effects of Upstream Shear Forces on Priming of Platelets for Downstream Adhesion and
Activation**
