Exploiting natural polysaccharides to enhance *in vitro* bio-constructs of primary neurons and progenitor cells

Manuela Medelin, Davide Porrelli, Emily Rose Aurand, Denis Scaini, Andrea Travan, Massimiliano Antonio Borgogna, Michela Cok, Ivan Donati, Eleonora Marsich, Chiara Scopa, Raffaella Scardigli, Sergio Paoletti, Laura Ballerini

PII: S1742-7061(18)30172-7  
DOI: <https://doi.org/10.1016/j.actbio.2018.03.041>  
Reference: ACTBIO 5383

To appear in: *Acta Biomaterialia*

Received Date: 8 December 2017  
Revised Date: 23 February 2018  
Accepted Date: 26 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
