Glaucomatous cell derived matrices differentially modulate non-glaucomatous trabecular meshwork cellular behavior

VijayKrishna Raghunathan, Julia Benoit, Ramesh Kasetti, Gulab Zode, Michelle Salemi, Brett S. Phinney, Kate E. Keller, Julia A. Staverosky, Christopher J. Murphy, Ted Acott, Janice Vranka

PII: S1742-7061(18)30120-X  
DOI: <https://doi.org/10.1016/j.actbio.2018.02.037>  
Reference: ACTBIO 5342

To appear in: *Acta Biomaterialia*

Received Date: 31 October 2017  
Revised Date: 23 February 2018  
Accepted Date: 28 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
