

Accepted Manuscript

Molecular and macro-scale analysis of enzyme-crosslinked silk hydrogels for rational biomaterial design

Meghan McGill, Jeannine M. Coburn, Benjamin P. Partlow, Xuan Mu, David L. Kaplan

PII: S1742-7061(17)30583-4

DOI: <http://dx.doi.org/10.1016/j.actbio.2017.09.020>

Reference: ACTBIO 5082

To appear in: *Acta Biomaterialia*

Received Date: 5 April 2017

Revised Date: 31 August 2017

Accepted Date: 13 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Molecular and macro-scale analysis of enzyme-crosslinked silk hydrogels for rational biomaterial design
