

## Accepted Manuscript

### Choline Phosphate Functionalized Cellulose Membrane: a Potential Hemostatic Dressing Based on a Unique Bioadhesion Mechanism

Xiaoqiang Yang, Na Li, Iren Constantinesco, Kai Yu, Jayachandran N. Kizhakkedathu, Donald E. Brooks

PII: S1742-7061(16)30307-5  
DOI: <http://dx.doi.org/10.1016/j.actbio.2016.06.030>  
Reference: ACTBIO 4302

To appear in: *Acta Biomaterialia*

Received Date: 20 November 2015  
Revised Date: 22 June 2016  
Accepted Date: 22 June 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
