Zebrafish Extracellular Matrix Improves Neuronal Viability and Network Formation in a 3-Dimensional Culture

Sung-Min Kim, Daniel Ward Long, Michael Wai Kok Tsang, Yadong Wang

PII: S0142-9612(18)30256-4
DOI: 10.1016/j.biomaterials.2018.04.009
Reference: JBMT 18595
To appear in: *Biomaterials*
Received Date: 15 December 2017
Revised Date: 31 March 2018
Accepted Date: 04 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
