

# Accepted Manuscript

Dual non-viral gene delivery from microparticles within 3D high-density stem cell constructs for enhanced bone tissue engineering

Alexandra McMillan, Minh Khanh Nguyen, Tomas Gonzalez-Fernandez, Peilin Ge, Xiaohua Yu, William Murphy, Daniel J. Kelly, Eben Alsberg

PII: S0142-9612(18)30006-1

DOI: [10.1016/j.biomaterials.2018.01.006](https://doi.org/10.1016/j.biomaterials.2018.01.006)

Reference: JBMT 18421

To appear in: *Biomaterials*

Received Date: 23 June 2017

Revised Date: 24 December 2017

Accepted Date: 2 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
