Gold nanostar-mediated neural activity control using plasmonic photothermal effects

Jee Woong Lee, Hyun Jun Jung, Hui Hun Cho, Jung Heon Lee, Yoonkey Nam

PII: S0142-9612(17)30697-X

DOI: [10.1016/j.biomaterials.2017.10.041](https://doi.org/10.1016/j.biomaterials.2017.10.041)

Reference: JBMT 18323

To appear in: *Biomaterials*

Received Date: 28 August 2017

Revised Date: 17 October 2017

Accepted Date: 25 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Gold nanostar-mediated neural activity control using plasmonic photothermal effects
