This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Effective antimicrobial activity of Cbf-14, derived from a cathelin-like domain, against penicillin-resistant bacteria

Lingman Ma, Yanrong Wang, Mengxiao Wang, Yuwei Tian, Wei Kang, Hanhan Liu, Hui Wang, Jie Dou*, Changlin Zhou*

State Key Laboratory of Natural Medicines, School of Life Science and Technology, China Pharmaceutical University, Nanjing, Jiangsu 210009, PR China

Abbreviated title: Effective antimicrobial activity of Cbf-14 against penicillin-resistant bacteria *in vitro/vivo*
