Ectopic bone formation in rapidly fabricated acellular injectable dense collagen-Bioglass hybrid scaffolds via gel aspiration-ejection

Amir K. Miri, Naser Muja, Neysan O. Kamranpour, William C. Lepry, Aldo R. Boccaccini, Susan A. Clarke, Showan N. Nazhat

PII: S0142-9612(16)00061-2

DOI: [10.1016/j.biomaterials.2016.01.047](https://doi.org/10.1016/j.biomaterials.2016.01.047)

Reference: JBMT 17323

To appear in: *Biomaterials*

Received Date: 31 August 2015

Revised Date: 15 January 2016

Accepted Date: 21 January 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
