Nano and microcarriers to improve stem cell behaviour for neuroregenerative medicine strategies: application to Huntington's disease

André M. Emilie, Passirani Catherine, Seijo Begona, Sanchez Alejandro, Montero-Menei Claudia N

PII: S0142-9612(15)00990-4

DOI: [10.1016/j.biomaterials.2015.12.008](https://doi.org/10.1016/j.biomaterials.2015.12.008)

Reference: JBMT 17251

To appear in: *Biomaterials*

Received Date: 30 June 2015

Revised Date: 9 December 2015

Accepted Date: 13 December 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Nano and microcarriers to improve stem cell behaviour for
neuroregenerative medicine strategies: application to Huntington's
disease**
