Biofabrication of bone tissue: Approaches, challenges and translation for bone regeneration

Daniel Tang, Rahul S. Tare, Liang-Yo Yang, David F. Williams, Professor Keng-Liang Ou, Professor Richard O.C. Oreffo

PII: S0142-9612(16)00026-0

DOI: [10.1016/j.biomaterials.2016.01.024](https://doi.org/10.1016/j.biomaterials.2016.01.024)

Reference: JBMT 17300

To appear in: *Biomaterials*

Received Date: 21 October 2015

Revised Date: 21 December 2015

Accepted Date: 1 January 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
