Old and new glycopeptide antibiotics: From product to gene and back in the post-genomic era

Giorgia Letizia Marcone, Elisa Binda, Francesca Berini, Flavia Marinelli

PII: S0734-9750(18)30025-9
DOI: doi:[10.1016/j.biotechadv.2018.02.009](https://doi.org/10.1016/j.biotechadv.2018.02.009)
Reference: JBA 7219
To appear in: *Biotechnology Advances*
Received date: 4 November 2017
Revised date: 22 January 2018
Accepted date: 14 February 2018

Please cite this article as: Giorgia Letizia Marcone, Elisa Binda, Francesca Berini, Flavia Marinelli, Old and new glycopeptide antibiotics: From product to gene and back in the post-genomic era. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Jba(2018), doi:[10.1016/j.biotechadv.2018.02.009](https://doi.org/10.1016/j.biotechadv.2018.02.009)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Old and new glycopeptide antibiotics: from product to gene and back in the post-genomic era
