

Accepted Manuscript

Title: FCS and ECH dependent production of phenolic aldehyde and melanin pigment from L-tyrosine in *Escherichia coli*

Authors: Seyoung Jang, Haemin Gang, Byung-Gee Kim, Kwon-Young Choi

PII: S0141-0229(17)30198-9
DOI: <https://doi.org/10.1016/j.enzmictec.2017.10.011>
Reference: EMT 9150

To appear in: *Enzyme and Microbial Technology*

Received date: 17-7-2017
Revised date: 26-9-2017
Accepted date: 27-10-2017

Please cite this article as: Jang Seyoung, Gang Haemin, Kim Byung-Gee, Choi Kwon-Young. FCS and ECH dependent production of phenolic aldehyde and melanin pigment from L-tyrosine in *Escherichia coli*. *Enzyme and Microbial Technology* <https://doi.org/10.1016/j.enzmictec.2017.10.011>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
