Title: Extraction, purification and characterisation of dermatan sulphate from bovine collagen waste liquor

Author: Simone A. Osborne Robyn A. Daniel Wei Chen Peter Stockwell Kerri Tyrrell Kirithi Desilva Robert B. Seymour

PII: S0960-3085(16)30040-2
DOI: <http://dx.doi.org/doi:10.1016/j.fbp.2016.05.008>
Reference: FBP 720

To appear in: *Food and Bioproducts Processing*

Received date: 29-3-2016
Revised date: 17-5-2016
Accepted date: 18-5-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- The processing of animal hide generates valuable by-products
- Bovine collagen waste liquor is a source of anti-thrombotic dermatan sulphate
- Filtration and chromatography produces dermatan sulphate with >93% purity
- Bovine hide dermatan sulphate inhibits thrombin through heparin cofactor II
