Title: Extraction of astaxanthin from microalga
Haematococcus pluvialis in red phase by using *Generally
Recognized As Safe* solvents and accelerated extraction

Authors: Antonio Molino, Juri Rimauro, Patrizia Casella,
Antonietta Cerbone, Vincenzo Larocca, Simeone Chianese,
Despina Karatza, Sanjeet Mehariya, Angelo Ferraro,
Evangelos Hristoforou, Dino Musmarra

PII: S0168-1656(18)30536-4
DOI: <https://doi.org/10.1016/j.jbiotec.2018.07.010>
Reference: BIOTEC 8215

To appear in: *Journal of Biotechnology*

Received date: 17-1-2018
Revised date: 4-7-2018
Accepted date: 4-7-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Extraction of astaxanthin from microalga *Haematococcus pluvialis* in red phase by using *Generally Recognized As Safe* solvents and accelerated extraction

Highlights

- Astaxanthin extraction by using Accelerated solvent extraction technology;
- Extraction of bio-products from micoralgae;
- Effect of pretreatment on the yield extraction.
