Title: Δ^9 -Tetrahydrocannabinolic acid synthase: the application of a plant secondary metabolite enzyme in biocatalytic chemical synthesis

Author: Kerstin Lange Andreas Schmid Mattijs K. Julsing

PII: S0168-1656(16)31365-7
DOI: <http://dx.doi.org/doi:10.1016/j.jbiotec.2016.06.022>
Reference: BIOTEC 7600

To appear in: *Journal of Biotechnology*

Received date: 2-2-2016
Revised date: 26-5-2016
Accepted date: 28-6-2016

Please cite this article as: Lange, Kerstin, Schmid, Andreas, Julsing, Mattijs K., Δ^9 -Tetrahydrocannabinolic acid synthase: the application of a plant secondary metabolite enzyme in biocatalytic chemical synthesis. *Journal of Biotechnology* <http://dx.doi.org/10.1016/j.jbiotec.2016.06.022>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Δ 9-Tetrahydrocannabinolic acid synthase: the application of a plant secondary metabolite enzyme in biocatalytic chemical synthesis
