Title: High-throughput fluorescence screening assay for the identification and comparison of antimicrobial peptides' activity on various yeast species

Author: Marie Kodedová Hana Sychrová

PII: S0168-1656(16)31372-4
DOI: <http://dx.doi.org/doi:10.1016/j.jbiotec.2016.06.023>
Reference: BIOTEC 7601

To appear in: *Journal of Biotechnology*

Received date: 8-3-2016
Revised date: 6-6-2016
Accepted date: 28-6-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

High-throughput fluorescence screening assay for the identification and comparison of antimicrobial peptides' activity on various yeast species

Marie Kodedová*, Hana Sychrová
