Title: Analysis of culture media screening data by projection to latent pathways: the case of *Pichia pastoris* X-33

Author: Inês A. Isidro Ana R. Ferreira João J. Clemente
António E. Cunha Rui Oliveira

PII: S0168-1656(15)30162-0
DOI: <http://dx.doi.org/doi:10.1016/j.jbiotec.2015.10.014>
Reference: BIOTEC 7283

To appear in: *Journal of Biotechnology*

Received date: 8-7-2015
Revised date: 12-10-2015
Accepted date: 16-10-2015

Please cite this article as: Isidro, Inês A., Ferreira, Ana R., Clemente, João J., Cunha, António E., Oliveira, Rui, Analysis of culture media screening data by projection to latent pathways: the case of *Pichia pastoris* X-33. *Journal of Biotechnology* <http://dx.doi.org/10.1016/j.jbiotec.2015.10.014>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Analysis of culture media screening data by projection to latent pathways: the case of *Pichia pastoris* X-33
