

Accepted Manuscript

Title: Enzyme-based lignocellulose hydrolyzation – Sauter mean diameter of raw materials as a basis for cellulase performance characterization and yield prediction

Author: Robert Glaser

PII: S0168-1656(15)30103-6
DOI: <http://dx.doi.org/doi:10.1016/j.jbiotec.2015.08.024>
Reference: BIOTEC 7223

To appear in: *Journal of Biotechnology*

Received date: 12-2-2015
Revised date: 22-8-2015
Accepted date: 26-8-2015

Please cite this article as: Glaser, Robert, Enzyme-based lignocellulose hydrolyzation ndash Sauter mean diameter of raw materials as a basis for cellulase performance characterization and yield prediction. *Journal of Biotechnology* <http://dx.doi.org/10.1016/j.jbiotec.2015.08.024>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Enzyme-based lignocellulose hydrolyzation – Sauter mean diameter of raw materials as a basis for cellulase performance characterization and yield prediction
